ABOUT US

Virtue Global provides support solutions for International Organization for Standardization (ISO) management system certification and other management standards to organisations globally.

We provide a comprehensive suite of support, training and implementation services leading to certification to various ISO standards for organizations across the world. Our ISO certification solutions are considered to be the best in terms of service delivery, certification approach, timely project completion and effectiveness.

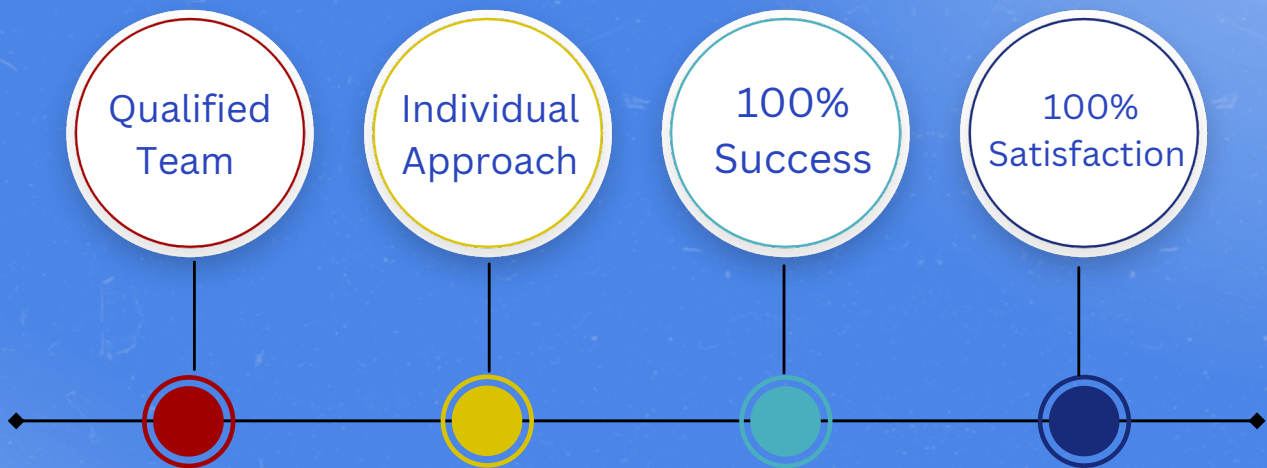

Our aim is at providing companies and the public sector with a consistently increasing range of standards, and a top level expertise and advice, across the various stages of the certification process.

Highlight

Use our experts to Develop the system and establish the policies, procedures, process and controls for effective management and provide clear recommendations to continually improve your performance. Our dedicated, experienced and highly competent team of consultant's review and evaluate your performance against standards. We help our clients to identify where and how to improve the organization in respect to Quality, Health, Safety and Environmental Management Systems and performance.

WHY CHOOSE US

Our Consulting Expertise provides full turnkey assistance in the development and implementation of management systems that conform to the desired ISO, or API standards. We provides expert guidance, a dedicated team, and years of knowledge to ensure our clients receive the desired certifications. We identify and prioritize opportunities to add significantly to your bottom line; we develop and help our clients implement a plan for exploiting those opportunities to achieve financially measurable success.

Our clear line guarantees full equivalence with the required standard and yet leaves enough room to implement your entrepreneurial concept.

- Systems and manuals for every area, no matter if a medium or large business, we are there for you.
- Completion of the Project within the timeline as agreed.
- Internal and external audit support
- Certification support
